DEADLINE TO APPLY: January 24th, 2019	

SUMMARY OF RESPONSIBILITIES

Reporting to the General Foreman Maintenance Concentrator, the Long term Planner will be responsible for:

- Plan and order major works to the concentrator, with the close collaboration of supervisors and maintenance planners: maintenance of existing equipment, modification required and installation of new equipment.
- Establish the schedule of plant shutdowns, plan and schedule major works.
- Ensure the integrity of critical hub equipment.
- Establish and maintain a preventive maintenance program in collaboration with mechanical planners and supervisors and electrical supervisors.
- Work closely with the maintenance and production supervisors;
- Complete requisitions for purchasing parts and ensure the inventory of parts necessary to ensure the integrity of the equipment;
- Ensure maintenance of the computerized maintenance system.
- Development, implementation and follow-up of KPIs on mechanical plant maintenance.

REQUIREMENTS

- College diploma or vocational diploma in an appropriate discipline and a minimum of 10 years' experience related to the position, including at least 5 years in planning and scheduling;
- Ability to learn and give training especially on the computerized maintenance system COGEP GUIDE Ti;
- Good knowledge of MS Office Suite software;
- Bilingualism (French and English).

SKILLS

- Definite orientation towards respect for health-safety and environment rules and guidelines;
- Ability to work within a multicultural team and environment;
- Resourceful, independent, positive;
- Great adaptability, openness and flexibility;
- Ability to work under pressure.
